

Progress Hybrid Outside Air Adapter Installation

Please read all the instructions before you begin the procedure. Confirm that you have all the necessary tools and materials. If you have any questions, technical support is available toll free at 1-800-866-4344, Monday-Saturday 9:00 – 5:00 ET

Tools Needed:

- Scissors
- Drill with a 1/8” drill bit
- 1/4” nut driver (or drill attachment)
- 7/16” wrench or socket

Materials Needed:

- Outside Air Adapter Part# P-383
- (2) #7 x 1/2 self-tapping screws
- 5”-4” reducer Part# OAA 54(optional)

1. Remove the rear heat shield if it is already installed on the stove. Remove the rectangular cover plate from the shield assembly to allow installation of the outside air adaptor through the rear heat shield.
2. Slide the outside air adaptor over the air inlet box at the rear of the stove with the 5” duct flange pointed down toward the floor. (Photo 1)

Photo 1

Photo 2

3. Use the outside air adaptor as a template to drill 1/8" holes into each end of the air intake box as shown. (Photo 2)
4. Remove the outside air adaptor from the stove. Return the rear heat shield to the stove but do not secure it. Slide the outside air adaptor through the rear heat shield.
5. Fasten the adaptor securely to the air inlet box using the supplied #7 x 1/2" screws with a 1/4" nut driver or equivalent.
6. Secure the rear heat shield in place with its hardware.
7. Install the 5"-4" reducer over the 5" duct flange if necessary. Drill an 1/8" pilot hole and secure the reducer to the outside air adaptor
8. Attach the duct to the outside air adaptor with pipe screws or hose clamp as needed to keep the components from coming apart.
9. Depending on how tight your home is you may want to add some optional silicone to the joints to prevent cold air from spilling into the living area and focus it to the stove. You do not need silicone where the adaptor meets the stove.

We need your help! Woodstock Soapstone Co. takes great pride in providing the highest quality products as well as the best customer service in our industry. We welcome your suggestions and input to help us achieve these goals. If you have any comments to improve our products, service, and information provided in these instructions please contact us at (800) 866-4344 or info@woodstove.com. Thank you.
