

## Absolute Steel Andirons

Please read all the instructions before you begin the procedure. Confirm that you have all the necessary tools and materials. If you have any questions, technical support is available toll free at 1-800-866-4344, Monday-Saturday 9:00 – 5:00 ET

### **Tools Needed:**

- work gloves
- vacuum

### **Materials Needed:**

- new andiron(s), if replacing

If you want to remove the andirons to make it easier to wipe down the glass, or should you need to replace them, they conveniently just lift out of their sockets. Remove andiron and vacuum the socket. This would normally be done through the loading door, but we removed the window for clarity of the photo.
