- Fireview 205 & 205b
- Keystone 204
- Palladian 202

Woodstock Soapstone Co.

Qualified Manufacturers Number: T6X3

The wood stoves listed above are 2020 EPA Certified and each have a thermal efficiency greater than 75% and satisfy the IRS requirements to be considered "qualified energy property" under Section 25C of the Internal Revenue Code. These stoves qualify for a tax credit for their purchase and installation costs under the energy tax credit package signed into law on December 21, of 2020.

The amount of the tax credit for a qualifying biomass stove is 30% of the purchase price of the qualifying stove. Consumers must keep a copy of this certificate with their tax records but do not need to submit it to the IRS with their tax returns.

The following restrictions apply:

• *Eligible stoves must be purchased and placed into service in an existing primary residence between January 1, 2023 and December 31, 2025.*

• *The current tax credit can be applied to the purchase price, materials and professional installation.*

For further information please consult your tax advisor to confirm your eligibility for this tax credit.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.
